Marcos Corchado, Mechanical Engineering senior student, continues his wont of winning awards. His work titled *"Effects of Boron and Zinc on Impact Tests of Al-Zn-B Alloy"* received the **2nd** Place in the poster competition held as part of the [Student Professional Development Conference \(SPDC\)](#) of <http://sailingthebay.org/generic-viagra-testimonials> District A of the [American Society of Mechanical Engineers ASME](#). This SPDC was held on the campus of [New York Institute of Technology](#) in Old Westbury, NY on April 26 and 27, 2013. This work was co-authored by Fernando Reyes, Industrial Engineering student and the moment of this article in a co-op at NASA's [Kennedy Space Center](#), under the supervision of Prof. O. Marcelo Suárez.
